
Responsible Minerals Sourcing Policy

As a global partner in the electronic industry, **INTELLIGENT MEMORY** is committed to the ethical and responsible sourcing of mineral. We are particularly concerned with the minerals identified in Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act – namely Tungsten, Tantalum, Tin and Gold (3TG) – as well as other minerals beyond 3TG that may originate from conflict-affected and high-risk areas (CAHRAs)

INTELLIGENT MEMORY recognizes its social responsibility to uphold environmental protection, occupational safety and health, and the respect for human rights. We recognize that our business operations have a significant impact on both society and the environment. To promote the peaceful, fair, and sustainable use of mineral resources, **INTELLIGENT MEMORY** is committed to ensure that our supply chain adheres to the Organization for Economic Cooperation and Development (OECD) Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-risk Areas. This policy is fully integrated into our supplier requirements and is actively implemented and monitored by our management team as a governing policy.

For further information regarding this policy or INTELLIGENT MEMORY's compliance with the Dodd-Frank Act, please contact your local sales representatives or reach us at:
